From SMPG Facilitators

“I think the most striking thing is how relieved parents are to hear that they are not alone and that there are other parents who can relate to their experiences and feelings.”

“One mother wrote, ‘My child’s a happier child, my family a healthier family, and I’m a better person as a result of this class.’”

“Becoming a SENG Facilitator has improved my own parenting skills and helped me develop a supportive parent network in my area. I could not have done this without SENG’s training and ongoing support!”
